

Welding Blow Pipe Attachment 400 Ltr

Item No.: 361361734

Product information

This welding attachment is working in combination with the cutting torch for brazing and gas welding. The workable material thickness range will be determined by the selection of welding attachment with different gas flow rate / capacity.

Consumption of Oxygen in nl/h is indicated by the size. Acetylene consumption is approximately 10% lower.

Material thickness refers to mild steel.

Size* O-A 400 for material thickness: 3.0 - 5.0 mm.

Specification

General:

Invent Hazard Material (IMO/EU) classification
