

## Oil Only

### Oil-Only Rolls

Oil-Only rolls have a loose stacked-weave construction that efficiently increase surface area. The melt-blown polypropylene fibers are left in their natural hydrophobic state. These hydrophobic fibers repel water and float, while only absorbing oils and other hydrocarbons. Absorption begins immediately when brought into contact with oil and other hydrocarbons. Oil-only rolls are white so that it is easy to see when fully saturated. One of the most commonly used products in oil cleanups are rolls. The advantage of a roll is that it can be cut to the desired length or can be bought perforated so that it can easily be torn off.

Oil Only - Rolls

Code	Description	Size [cm]	Package
371371116	Light-weight Oil Only rol	96 x 4400	1
371371115	Light-weight Oil Only halve rollen	48 x 4400	2
371371132	Heavy-weight Oil Only rol	96 x 4400	1
