

FOAM PLUS

APPLICATIONS

Foam Plus is a water based non-flammable product. When using this product, the cleaning efficiency of the cleaning chemicals will be enhanced. It will also be a more economical use of the cleaning chemicals.

DIRECTIONS FOR USE

Dosing method **Foam Plus** can be used together with the below mentioned water based cleaning chemicals. This makes it possible to apply the chemicals as foam, and prevent that the cleaning chemicals run off from vertical surfaces. *Alkalcean Liquid, Marisol, Tankclean Alkaline Extra, Alkaclean Safety, Genepol and Uniclean GP.*

Add 50 ml **Foam Plus** per 10 litres washing solution, mix and apply with foam-equipment onto soiled surfaces. Advice to follow the directions for use for the actual cleaning product.

Code: 161161334
