

Self-Retracking AC/OX Hose Reel

Item No.: 361361320

Product information

In a workshop, it is difficult to handle the hoses that cluttering the floor, as well as to store them tidy. Self-retracting hose reels, gives you the ability to pull out the required length of hose you need and keep the rest stored out of harms. This way saves time, makes the job easier and contributes to increased efficiency. Additionally, it improves the access for carts and trolleys and reduce tripping accidents which is important. Our self-retracting reel is a robust construction of steel, has a well proven design that vouches safe usage and is maintenance free. There is a single-layer retraction of the hose and an open design for safety and easy service as well.

Supplied with: 18 m 6.3 mm twin hose

Safety

We highly recommend to check the AC/OX twin hose for cracks and leaks in the outer rubber before every usage. Change the hose if is necessary. It is also recommended to completely change the hose after 5 years of operation due to aging of the rubber. Remember to check the hoses for inlet them to hose reel, as well as the hose on the reel.

Features

- Only required length of hoses is pulled out to do the job
- Less handling of hoses rigging up and rigging down

Benefits

- Avoid tripping accidents and improve safety
- Workshop floor free from hoses
- Less wear and tear on hoses
- Saves time
